MEMORANDUM FOR: Hal Ford, NIO/AL
FROM: NIO/EUR
SUBJECT: Possible European Items for the DCI Worldwide Testimony

I suggest the following issues be considered:

- Political developments in Germany, particularly the search for a new national security consensus;
- Developments in the Aegean, particularly Cyprus and Greek foreign policy;
- Public linkage being made by Spanish Prime Minister Gonzalez between continued membership in NATO and the size of the US presence;
- Developments in Yugoslavia, particularly the danger that the current leadership will continue to flounder and let the economic and political situation get progressively worse;
- Poland--the uneasy equilibrium and constant danger of some explosion;
- US-European frictions over the SDI, the Nunn amendment, and the reinvigoration of a Soviet campaign against INF.
